PART 3201—MINING

[Preference Rating Order P-56, as Amended July 4, 1944]

MINES AND SMELTERS

§ 3201.11 Preference Rating Order P-56—(a) Purpose and scope. This order explains how operators of mines and smelters in the United States and in foreign countries may get the materials and products they need to carry on their operations. The materials covered include not only maintenance, repair, and operating supplies, including controlled materials, but also machinery, other kinds of materials, and equipment. This order does not apply, however, to an operator of a nonessential mine as defined in Limitation Order L-208.

(b) Definitions. (1) "Producer" means a person operating any of the following enterprises, whether in the United States, or any of its territories, or in a foreign country, but does not include any enterprise defined as a "nonessential" mine in Order L-208: (i) any plant actually engaged in the extraction by surface, open-pit, or underground methods, or in the beneficiation, concentration, or preparation for shipment of the products of mining activity; (ii) any plant wholly engaged in the processing and burning of refractories; (iii) any plant producing any material listed below by smelting or refining processes, and to whom a serial number has been issued under Preference Rating Order P-73, or is hereafter issued as provided in paragraph (c):

Antimony Nickel
Cobalt Platinum
Gopper Tin
Iridium Tungsten
Lead Vanadium
Mercury Zinc
Molybdenum

(iv) any prospecting enterprise for the discovery, exploration, or development of new or additional mining projects, in-

cluding the construction of access roads; and (v) mines, concentrating mills, smelters, railroads, power plants, refineries, and appurtenances owned and operated by the companies holding serial numbers under Preference Rating Order P-58 on December 24, 1943.

- (2) "District" means a mine supply control district of the Foreign Economic Administration.
- (3) "Maintenance, repair, and operating supplies" means material used for the following purposes by producers in the conduct of enterprises described above in paragraph (b) (1): (i) minimum upkeep necessary to continue the working condition of essential property or equipment, and (ii) restoration of essential property or equipment to a sound working condition after wear and tear, damage, destruction or failure of parts, or the like have made the property or equipment unfit or unsafe for service; and supplies which are essential to and consumed or worn out in the conduct of such enterprises. In addition. except as hereinafter noted, the term "maintenance, repair, and operating supplies" includes minor capital additions normally necessary to the operation of the enterprise, but not exceeding in cost \$500 (excluding purchaser's cost of labor) for any one complete capital addition. The term "one complete capital addition" includes a group of items customarily purchased together and all items which would normally be purchased as part of a single project or plan. No capital addition shall be subdivided for the purpose of coming within this paragraph.

Producers Holding Serial Numbers

(c) (1) Maintenance, repair, and operating supplies for domestic producers with serial numbers. Producers located within the United States, its territories and possessions (herein called "domestic" producers), holding serial numbers, which may be obtained in the manner specified in paragraph (f), are hereby assigned a preference rating of AA-1 for the purchase of maintenance, repair, and operating supplies, other than controlled materials. This rating may be applied by the producer by placing on his delivery order the endorsement described in paragraph (g). The producer may obtain controlled materials for mainte-The producer may obnance, repair, and operating supplies by endorsing his delivery order with the endorsement described in paragraph (g) and inserting therein the allotment symbol "S-7" and appropriate quarterly abbreviation. An order bearing this endorsement constitutes an authorized controlled material order. No serialized producer shall order for delivery during any calendar quarter, with or without preference ratings, or allotment number, maintenance, repair, or operating supplies in an aggregate amount exceeding 120 percent of his aggregate expenditures for maintenance, repair, and operating supplies during the corresponding calendar quarter of 1943. A producer who has several plants or other operating units which maintain separate records of

maintenance, repair, and operating supplies may treat each of them separately for purposes of complying with the provisions of this paragraph (c) (1).

(2) Maintenance, repair, and operating supplies for foreign producers with serial numbers. Producers located outside the United States, its territories and possessions and outside of Canada, (herein called "foreign" producers), holding serial numbers, which may be obtained in the manner specified in paragraph (f), may apply for priorities assistance for maintenance, repair, and operating supplies by filling the foreign mine quota application Form WPB-2937 with the Mining Division, War Production Board, Washington 25, D. C.

(3) Machinery and equipment. producers holding serial numbers, whether domestic, foreign, or Canadian, may apply for priority assistance in obtaining machinery and equipment by filing Form WPB-1319 in accordance with the WPB-1319 instruction pamphlet for items of equipment listed therein. .Also, for items of equipment not listed in the instruction pamphlet for which a preference rating is required without authorization on a special form, application should be made on Form WPB-1319. For items of equipment not listed in the WPB-1319 instruction pamphlet, for which orders of the War Production Board require application for specific authorization to be made on a special form, application should be made on such special form. All applications should be filed with the Mining Division, War Production Board, Washington 25, D. C., Ref. P-56, unless otherwise provided in the WPB-1319 instructions. If necessary, Form WPB-1319 or the special form may be accompanied by a letter explaining any unusual circumstances. No application is necessary in the case of minor capital additions as defined in paragraph (b) (3) unless a special form is required by another order of the War Production Board.

Foreign Producers Operating Under Mine Supply Control Districts

- (d) Priorities assistance for certain foreign producers operating under mine supply control districts. To enable a producer not holding a serial number hereunder and located outside the continental United States and within the jurisdiction of a district to obtain priorities assistance, the following procedure is established:
- (1) For maintenance, repair, and operating supplies a district may apply for priorities assistance by filing the foreign mine quota application Form WPB-2937 with the Mining Division, War Production Board, Washington 25, D. C., Ref: P-56. A producer not holding a serial number and located in a district may apply for priorities assistance by submitting to such district his purchase orders for maintenance, repair, or operating supplies, together with such infor-

mation as may be required by the district. Within the limits of the priorities assistance granted to it pursuant to this paragraph (d) (1), such district may authenticate any such purchase order for maintenance, repair, or operating supplies by indicating the appropriate priorities assistance and countersigning the purchase order as follows:

Approved:

Name of district

Signature of authorized official

(2) For other machinery, materials, and equipment, a producer not holding a serial number and located within a district may submit to the War Production Board, Form WPB-1319 or any prescribed special application form, following the procedure specified for serialized producers in paragraph (c) (3), such application to be endorsed with the signed approval of the district within which the applicant is located.

(3) A distributor of maintenance, repair, or operating supplies or of other machinery, materials, or equipment used by producers, who is located outside the United States and within the jurisdiction of a district, may apply for priorities assistance in the same manner as prescribed in paragraphs (d) (1) and (d) (2) for producers not holding serial numbers and located within the jurisdic-

tion of a district.

Other Producers Not Holding Serial Numbers

(e) (1) Priorities assistance for other producers not holding serial numbers. A preference rating of AA-5 is hereby assigned to delivery orders for maintenance, repair, and operating supplies (including minor capital additions as defined in paragraph (b) (3)), other than controlled materials, placed by domestic producers not holding serial numbers (other than operators of nonessential mines as defined in Limitation Order L-208). This rating may be applied by the producer by placing on his delivery order the endorsement described in paragraph (g). The producer may obtain controlled materials for maintenance, repair, and operating supplies by placing on his delivery order the endorsement described in paragraph (g) and inserting therein the allotment symbol "S-7" and appropriate quarterly abbreviation. An order bearing this endorsement constitutes an authorized controlled material order. No producer who uses the allotment symbol assigned by this order shall order controlled materials for delivery during any calendar quarter in an amount exceeding 120 percent of his aggregate expenditures for controlled materials for use as maintenance, repair, and operating supplies during the corresponding calendar quarter of 1943. Such producers may apply for higher ratings for maintenance, repair, or operating supplies exclusive of minor capital additions by filing Form WPB-2910 with the Mining Division of the War Production Board, Washington 25, D. C., Ref: P-56; and for higher ratings, or for specific authorization if such is required, for minor capital additions, such producers may apply on Form WPB-1319 or any prescribed special application form, following the procedure specified for serialized producers in paragraph (c) (3), except that Form WPB-1319 shall be filed with the War Production Board regional or district office in which is located the Technical Advisor for Mining for the area in which the enterprise is located, and only the special application form, when one is prescribed, shall be filed with the Mining Division in Washington, D. C. Such producers may apply for priorities assistance for machinery or equipment by filing Form WPB-1319 or any prescribed special application form, following the procedure specified for serialized producers in paragraph (c) (3), with the Mining Division of the War Production Board, Washington 25, D. C., Ref: P-56. Foreign producers, not holding serial numbers and not located in a mine supply control district, may apply for priorities assistance for maintenance, repair, and operating supplies, exclusive of minor capital additions, by filing Form WPB-2910 with the Mining Division of the War Production Board, Washington 25, D. C., Ref: P-56, and for machinery or equipment, including minor capital additions, by filing Form WPB-1319 or any prescribed special application form, following the procedure specified for serialized producers in paragraph (c) (3), with the Mining Division of the War Production Board, Washington 25, D. C., Ref: P-56.

Serial Numbers

(f) Issuance of serial numbers. Applications for serial numbers may, in the case of producers within the continental limits of the United States, be filed with the appropriate War Production Board Regional Office, Attention: Regional Technical Advisor, Mining Division; or with the appropriate State Coordinator of Mines for transmission to such Regional Advisor; or with the Mining Division, War Production Board, Washington, D. C. Serial number application by districts must be filed with the Mining Division, War Production Board, Washington 25, D. C., Ref: P-56. Applications by Canadian and all other foreign producers should also be filed with the Mining Division, War Production Board, Washington 25, D. C., Ref: P-56. In filing such application, the following forms shall be used:

Metal mines_____ Form WPB-1212
Coal mines_____ Form WPB-2764
Non-metallic mines_____ Form WPB-2753
Core or churn drill operators Form WPB-2952

Smelters and refineries shall apply by letter. In issuing and cancelling serial numbers, the War Production Board will consider the importance to national defense of the present and prospective output of materials to be produced, the consumption of the critical material involved, and the importance to national defense of competing demands for such material, and competing demands for manpower and transportation. Serial numbers issued under Preference Rating Orders P-58 and P-73, and not cancelled prior to December 24, 1943, are hereby confirmed and shall be considered as having been issued under this Order P-56.

Use of Priorities Assistance; All Producers

(g) Application and extension of prioritics assistance. The way to use preference ratings is explained in Priorities Regulation No. 3, and the way to use allotments, both in placing authorized controlled material orders and in making allotments, is explained in CMP Regulation No. 1. Instead of using the certification prescribed by those regulations or by any other regulation of the War Production Board, including Priorities Regulation No. 7, the producer may use the following endorsement signed manually or as provided in Priorities Regulation No. 7:

Allotment number
Preference rating
Order authorized under Preference Eating
Order P-56, Serial No.

He shall not add the symbol "MRO" despite the certification instructions in CMP Regulation No. 5 or any other regulation. Requirements of other orders of the War Production Board as to special certifications remain applicable, but the foregoing endorsement shall be added to such certification. The use of the foregoing endorsement by a producer shall constitute a representation by the producer to the seller and to the War Production Board, subject to the penalties of section 35A of the United States Criminal Code (18 U.S. C. 80), that to the best of the producer's knowledge and belief he is authorized under applicable War Production Board orders and regulations to place the delivery order, to receive the item ordered for the purpose for which ordered, and to use the preference rating or allotment symbol for this purpose. Preference ratings assigned under this order for maintenance, repair, and operating supplies may not be used to obtain items on List A or List B of Priorities Regulation No. 3, except where that regulation permits the use of a P-56 rating for a particular item.

(h) Restrictions on receipts and inventories. Notwithstanding the provisions of any other order or regulation of the War Production Board, including CMP Regulation 2, receipts and inventories of producers shall be subject to the following restrictions only: No producer shall receive any delivery of material which will increase his inventory of such material to an amount greater than the minimum necessary to sustain his current level of operations; and the ratio of such inventory to current production shall in no event exceed the ratio of average inventory to average production for the

years 1938, 1939, and 1940.

(i) Restrictions on use and resale of material. Notwithstanding § 944.11 of Priorities Regulation No. 1, no producer shall use any material, whether or not obtained pursuant to this order, for any purpose other than that for which priorities assistance was granted to acquire it; nor may he sell any material (including machinery and equipment), which he has used in the conduct of any enterprise described in paragraph (b) (1), whether or not he obtained such material with priorities assistance under this or any other order, except:

(1) To a producer holding a serial

number hereunder, or

(2) With the written approval of the War Production Board applied for by letter to the Mining Division, or

(3) With the written approval of a district if he is a non-serialized producer located within such district, or

(4) As permitted by Priorities Regulation No. 13.

Applicability of Other Regulations and Orders

(j) (1) CMP Regulation No. 5 and other regulations of the War Production Board. None of the restrictions contained in CMP Regulation No. 5 shall be applicable to producers, and no producer shall obtain any material under CMP Regulation No. 5. However, privileges under other orders and regulations of the War Production Board granted to persons on Schedules I and II of CMP Regulation No. 5 shall be considered as applicable to producers operating under this order. For example, Order E-5-a on gauges and precision measuring hand tools classifies a person on Schedules I and II of CMP Regulation No. 5 as an "approved user." Producers operating under Order P-56 are in the same position providing that certification clauses and all other provisions of such other orders are complied with.

(2) Restriction on use of priorities assistance. No serialized foreign producer or district shall acquire maintenance, repair, or operating supplies through the use of any preference rating except after having received an approved application on the foreign mine quota application Form WPB-2937, or, in the case of a non-serialized foreign producer located outside a district, on Form WPB-2910, from the Mining Division, War Production Board, Washington 25, D. C. No producer shall acquire any machinery or equipment (other than maintenance, repair, and operating suplies) through the use of any preference rating or any specific authorization of the War Production Board except after filing Form WPB-1319 or any prescribed special application form in the manner above provided, or except after filing a project application.

Miscellaneous Provisions

(k) Records and orders. Each producer and each distributor acquiring maintenance, repair, or operating supplies pursuant to this order shall keep and preserve for a period of not less than two years accurate and complete records of all such materials so acquired and used or disposed of which shall upon request be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(1) Reports. Producers shall file such report forms as may be required from , time to time by the War Production Board, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942. The reporting requirements of this order have received the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(m) Additional assistance and appeals in individual cases. If the sound working condition of a producer is adversely affected by any provisions of this order or by inability to obtain material essential for repair, maintenance, or operating supplies, the producer may apply to the War Production Board for additional assistance by letter, in duplicate, giving the reasons why such assistance is essential. If an increased quota is sought, the present quota should be stated. In case of breakdown, imminent breakdown, or other emergency, the application may be made by telegraph or telephone either to the Mining Division, Washington, D. C., or to the nearest regional or district WPB office.

(n) Communications. All reports and applications hereunder and all other communications with respect to this order shall, except as otherwise specifically provided, be addressed to the Mining Division, War Production Board, Washington 25, D. C., Ref: P-56.

(o) Violations. Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 4th day of July 1944.

WAR PRODUCTION BOARD. By J. JOSEPH 'WHELAN. Recording Secretary.

INTERPRETATION 1

APPLICABILITY TO CUTTING AND POLISHING OPERATIONS AT THE QUARRY

The term "producer" as defined in Preference Rating Order P-56 includes persons operating a quarry and also persons conducting further cutting and polishing operations at the quarry site, such as the manufacture of. building stone and tombstones. These latter operations are included in the phrase "preparation for shipment, of the products of mining activity" appearing in paragraph
(b) (1) (i) (§ 3201.11) of the order.

Since paragraph (j) (1) of the order forbids "producers" from obtaining any materials under CMP Regulation 5, producers of tombstones or other stone products at the quarry site may not operate under this regulation but must get priorities assistance exclusively under Order P-56.

The manufacture of tombstones and structural stone at a separate plant away from the quarry is not covered by Order P-50, and priorities assistance for MRO supplies required in such operations may be obtained under CMP Regulation 5. Under CMP Regulation 5, a rating of AA-2 is assigned to persons engaged in the manufacture of structural stone, while persons engaged in the manufacture of tombstones and monuments may use the AA-5 rating which is assigned under that regulation to unlisted business. PROCEDURE FOR ADJUSTMENTS, AMENDMENT, PROTESTS AND INTERPRETATIONS UNDER RENT REGULATIONS

- 2. Section 1300.209 (a) is amended to read as follows:
- (a) Any landlord whose petition for adjustment or other relief has been dismissed or denied in whole or in part by the rent director, or any landlord subject to an order entered by the rent director on his own initiative may file with the rent director an application for review of such determination by the regional administrator for the region in which the defense-rental area office is located: Provided, That any landlord subject to an order entered under section 5 (d) of any maximum rent regulation or subject to an order entered by the rent director under § 1300.207 of this regulation, may either apply for review of such order as provided in this section, or may protest any provision of such order as provided in §§ 1300.215 to 1300.223, inclusive, of this regulation. An application for review shall be filed in triplicate upon forms prescribed by the Administrator and pursuant to instructions stated on such forms. Upon the filing of an application for review of such determination, the rent director shall forward the record of the proceedings with respect to which such application is filed to the appropriate regional administrator.
- 3. Section 1300.209 (b) is amended to read as follows:
- (b) Applications for review may be filed within ninety (90) days after the date of issuance of the determination to be reviewed (or before October 1, 1944, with respect to determinations made prior to July 1, 1944). An application for review which is not filed within the specified time ordinarily will be dismissed unless special circumstances are shown to justify a later filing.
- 4. Section 1300.216 is amended to read as follows:
- § 1300.216 Time and place of filing protests. (a) Any protest against the provisions of a maximum rent regulation may be filed at any time after the issuance thereof.
- (b) The act provides no specific time limit for filing a protest against an order issued under § 1300.210 of this regulation, or of an order entered under section 5 (d) of any maximum rent regulation, or of an order entered by the Rent Director under § 1300.207 of this regula-tion. However, as the United States Emergency Court of Appeals has stated in its opinion in the case of R. E. Schnazer, Inc. v. Bowles, 141 F. 2d 262 (1944), if the filing of a protest is unduly delayed, the defense of laches (unreasonable delay) may be available to the Administrator. There will ordinarily be no reason why a protest against an order of the kind specified in this paragraph, affecting only an individual landlord,

cannot be filed promptly after the issuance of such order. Accordingly, if a protest is not filed within ninety (90) days after the date of issuance of such order (or before October 1, 1944 in the case of an order entered prior to July 1, 1944), the Administrator ordinarily will regard the delay as unreasonable and will dismiss the protest unless special circumstances are shown to justify the delay.

- (c) Protests shall be filed with the Secretary of the Office of Price Administration, Washington 25, D. C.
- 5. Section 1300.219 (f) is revoked and paragraph (g) of § 1300.219 is redesignated paragraph (f).
- 6. Section 1300.220 (c) is revoked.
 7. Section 1300.222 is amended to read

PART 1300—PROCEDURE

[Rev. Procedural Reg. 1,1 Amdt. 8]

PROCEDURE FOR THE ISSUANCE, ADJUSTMENT, AMENDMENT, PROTEST AND INTERPRETA-TION OF MAXIMUM PRICE REGULATIONS

Revised Procedural Regulation No. 1 is amended in the following respects:

- 1. Section 1 (d) is amended to read as follows:
- (d) Article V deals with protests. A protest is the means provided by the Emergency Price Control Act of 1942 for making a formal claim that a maximum price regulation is in some respect invalid. Only if a protest has been filed and denied, or if leave has been granted by a court pursuant to section 204 (e) (1) of the act, may the protestant file a complaint with the Emergency Court of Appeals to have the maximum price regulation enjoined or set aside in whole or in
- 2. Section 17 (b) is amended to read as follows:
- (b) Any applicant whose application for adjustment has been denied in whole or in part by a regional administrator in the first instance, may, within 60 days after the date on which notice of denial was mailed to him, file with the regional office a request for review by the Administrator of such denial.
- 3. Section 17 (c) is amended to read as follows:
- (c) Timely filing. Requests for review shall be deemed filed on the date received by the state or district or regional office: Provided, That requests for review properly addressed to the appropriate district or regional office, bearing a post-mark dated within 60 days after the date on which the order of denial was mailed but received after the expiration thereof, shall be deemed to have been filed on the date of the post-mark.
- 4. Section 18 is amended to read as follows: .

SEC. 18. Action on review. After due consideration the Administrator or the Regional Administrator, as the case may be, shall grant or deny in whole or in part, any application for adjustment as to which a proper request for review has been filed. The applicant shall be informed in writing of the action so taken.

Section 19 is amended to read as follows:

Sec. 19. Protest of denial of application. Any applicant whose application for adjustment has been denied in whole or in part by the Administrator, or, upon request for review, by any regional administrator, may file a protest against such order in accordance with the provisions of this Revised Procedural Regulation No. 1. There is no specific statutory limit of time within which protests must be filed. However, as the United States [F. R. Doc. 44-9801; Filed, July 3, 1944; Emergency Court of Appeals has stated in its opinion in the case of R. E. Schanzer, Inc. v. Bowles, 141 F. (2d) 262 (1944), if the filing of a protest is unduly delayed, the defense of laches (unreasonable delay) may be available to the Administrator. Where such an order is issued denying a seller's application for adjustment of his own maximum price. ordinarily there will be no reason why he cannot file a protest promptly after the order of denial is issued. Accordingly, in such a case, if a protest is filed more than 90 days after the issuance of the order, the Administrator will ordinarily

regard the delay as unreasonable and dismiss the protest unless special circumstances are shown which justify the delay. An order denying an application for adjustment may be protested, under Article V, in the same manner as a maximum price regulation. However, the protest may be based only upon grounds raised in the application for adjustment.

6. Section 26 is amended to read as follows:

SEC. 26. Time and place for filing protests. (a) A protest against a provision of a maximum price regulation may be filed at any time after the issuance thereof. Protests shall be filed with the Secretary, Office of Price Administration, Washington, D. C., except that protests of any person having his principal place of business in a territory may be filed with the director of the appropriate territorial office.

- (b) Protests shall be deemed filed on the date received by the Secretary, Office of Price Administration, Washington, D. C., or by the director of the appropriate territorial office, as the case may be.
 - 7. Section 29 (f) is revoked.
- 8. Section 33 is amended to read as follows:

SEC. 33. Amendment of protest and presentation of supplemental evidence. A protestant may at any time be granted permission to amend his protest or to present further evidence in connection therewith when, in the judgment of the Administrator, such permission will not unduly delay the completion of proceedings on the protest.

- 9. The first sentence of section 35 (a) is amended to read as follows:
- (a) Within a reasonable time after the filing of any protest in accordance with this revised procedural regulation, but in no event more than thirty days after such filing, the Administrator shall:

(a) To determine, for any area within his jurisdiction, and with respect to each commodity covered by this regulation, whether it has been a well-established custom in that area for a substantial number of processors to employ brokers or other agents to secure raw materials for processing. If such a custom is found to exist, the authorized officer shall issue an appropriate order to the effect that for the particular area the definition of "delivered to customary receiving points" in section 3 and of "customary receiving point" in Sec. 4 do not apply, and that processors' customary receiving points are the places where, in the past, they have customarily received the raw materials, whether or not they maintained the above mentioned facilities at that point.
